Aerographer’s Mates are the Navy’s meteorological and oceanographic experts, trained in the science of meteorology and physical oceanography. They also learn to use instruments that monitor weather characteristics such as air pressure, temperature, humidity, wind speed and direction. They then distribute this data to aircraft, ships and shore activities.

WHAT THEY DO
- Collecting, recording and analyzing weather and oceanographic information;
- Preparing up-to-date weather maps and oceanographic data;
- Issuing weather forecasts and warnings;
- Conducting weather/oceanographic briefings;
- Using, testing, calibrating and performing minor and preventive maintenance on meteorological instruments including satellite receivers;
- Preparing balloon-carried instruments for flight, evaluating and analyzing data received;
- Operating, programming and maintaining computers and related equipment.

CAREER PATH AFTER RECRUIT TRAINING
Enlistees are taught the fundamentals of this rating through on-the-job training or formal Navy schooling. Advanced technical and operational training is available in this rating during later stages of career development.

Upon graduating from "A" school, AGs work toward qualification as environmental observers through completion of Personnel Qualification Standards (PQS). They also prepare for advanced training at "C" school by the four- to six-year career stage. Aerographer's Mates are assigned to larger ships such as aircraft carriers, amphibious ships and cruisers, to naval air stations, weather centers, and other shore facilities in the United States or overseas. During a 20-year period in the Navy, AGs spend about 60 percent of their time assigned to fleet units and 40 percent to shore stations.

WORKING ENVIRONMENT
Men and women in the AG rating perform their duties in clean, comfortable office-like environments. Their work is usually mental, is done closely with others and requires little supervision.

OPPORTUNITIES
The opportunities to enter the AG rating are excellent for qualified candidates. Currently, about 1,300 men and women work in the AG rating.

QUALIFICATIONS & INTERESTS
Applicants must be U.S. citizens eligible for security clearance. Applicants should have an interest in aviation and working with or around aircraft. They should be interested in weather systems and have basic skills in arithmetic, speaking, writing, and record keeping. Applicants should expect detailed work and repetitive tasks as part of their normal functions. Also important are a good memory and the ability to get along well with people.

Helpful attributes are an interest in ideas and information, resourcefulness, curiosity, competence with tools, equipment and machines, manual dexterity and teamwork.

Normal hearing and color perception are required for this rating.
AG - Aerographer’s Mate

MANAGE A NAVY CAREER WITH NAVY LADR
See the Navy LaDR (Learning and Development Roadmap) for this rating:

EARN COLLEGE CREDIT
The American Council on Education recommends that semester hour credits be awarded in the vocational certificate and lower-division bachelor’s / associate’s degree categories for courses taken in this rating on word processing or data entry applications and office management procedures. See the college credits available via a Joint Services Transcript for this rating:

EARN DEPARTMENT OF LABOR (DOL) NATIONALLY RECOGNIZED APPRENTICESHIPS
The United Services Military Apprenticeship Program (USMAP) is a formal military training program that provides active duty and Full Time Support (FTS) Service members the opportunity to improve their job skills and to complete their civilian apprenticeship requirements while they are on active duty. The U.S. Department of Labor (DOL) provides the nationally recognized “Certificate of Completion” upon program completion. Visit United Services Military Apprenticeship Program (USMAP) for apprenticeships:
https://usmap.netc.navy.mil/usmapss/static/navyRates.htm

EARN INDUSTRY RECOGNIZED CREDENTIALS
Navy COOL catalogs and defines comprehensive information on occupational credentials - including certifications, licenses, and apprenticeships - correlating with every Navy rating and some collateral duties. It provides “how to” instructions for pursuing these credentials, links to credentialing organizations, and cross-references to programs that help Sailors pay for credentialing fees. Shortly following the initial rating technical training (Class "A" technical school), Sailors may be able to take advantage of earning civilian/industry certifications & licenses (credentials), funded through Navy COOL.

EARN SKILL SETS TOWARDS CIVILIAN RELATED OCCUPATIONS
The skill sets for this rating crosswalk to civilian related occupations listed by the U.S. Department of Labor. See Related Civilian, Federal and Military Sealift Command Occupations for this rating on Navy COOL.
