

# SN (PACT) - Seaman Professional Apprenticeship Career Track

This enlistment program option enables men and women to eventually qualify for one of several Navy ratings (skill specialties) through on-the-job Seaman Professional Career Track (PACT) training.

The program also offers apprenticeship training in a rating that may not be available at the time of enlistment.

## WHAT THEY DO

- Standing underway engineering watches and serving as helmsmen and lookouts;
- Repairing, maintaining and stowing equipment in preparation for underway operations;
- Working in non-engineering divisions of the ship or station;
- Standing security watches while in port and under way;
- Operating sound-powered telephone systems;
- Doing temporary duty for 90-120 days with food services divisions or compartment cleaning;
- Serving as a member of damage control, emergency and security alert teams;
- Participating in naval ceremonies;
- Taking part in underway replenishment (transferring supplies from ship to ship at sea);
- Working with qualified personnel to gain job training and experience.

## CAREER PATH AFTER RECRUIT TRAINING

Seaman are taught fundamental skills needed in a shipboard environment. Most training takes place at the first duty station in the form of on-the-job training in the rating for which they are "striking." By "striking" for a specific Navy rating a qualified person may be assigned to a Navy class "A" technical school for further training in that rating.

After completion of recruit training, enlistees in the PACT program will attend a three-week Seamanship Common Core course on basic theory in shipboard surface operations and evolutions. After successful completion of this training, Seaman are usually assigned to shipboard duties where the Navy needs them the most.

Seamen can request, and may receive on-the-job training in a rating that they are interested in, qualified for, and is available at their first command, by completing correspondence courses and personal qualification standards. They must also be recommended by their commanding officer for the Navy rating they desire.

Seamen may also attend Navy schools to learn about general damage control, shipboard fire-fighting, preventive maintenance of special equipment, and the use of special tools used in the rating they are working in or seeking

## EARN INDUSTRY RECOGNIZED CREDENTIALS

Navy COOL catalogs and defines comprehensive information on occupational credentials - including certifications, licenses, and apprenticeships - correlating with every Navy rating and some collateral duties. It provides "how to" instructions for pursuing these credentials, links to credentialing organizations, and cross-references to programs that help Sailors pay for credentialing fees. Shortly following the initial rating technical training (Class "A" technical school), Sailors may be able to take advantage of earning civilian/industry certifications & licenses (credentials), funded through Navy COOL.
